\$115 / per week – Two months\$140 / per week – One month\$165 / per week – Under one month

Prices include craft apron and supplies for the week AND two rides on the interactive Flight Simulator.

Discounts

\$15 off per week for all airport employees.

Ideal for Ages

Camps are geared toward children between the ages of six to 12.

About SpacePort

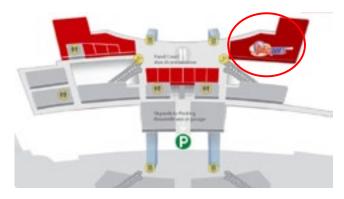

Allow your child to explore science, space and aviation through hands-on activities, multi-media presentations and outdoor activities.

Since 2001, SpacePort has been running space and aviation-themed summer day camps, and they grow bigger and better every year. Campers aged six to 12 participate in a variety of science workshops, stage shows and craft projects from our educational programs and NASA's educational division.

Come and join SpacePort's wonderful staff for a summer of fun and learning.

Location

SpacePort is located on the third floor (mezzanine level) of Calgary International Airport. Take the escalator/elevator up from the Departures Level to the Destinations Food Court area.

2015 Summer Day Camps

CALGARY INTERNATIONAL AIRPORT

Living in Space July 6 - 10

Learn about the everyday challenges Astronauts have to go through. This week we will challenge the campers to work as a team and explore how astronauts live and work in the unusual environment of micro gravity. From the physical aspect of astronaut training to mental challenges that come and go, we will make our little campers out of this world ready for space. If you have an aspiring astronaut at home, this is the week for you.

Journey to the Red Planet July 27 - July 31

Get your Mars One ticket ready! This week your kids will be the first humans to ever explore the Red Planet. It's time to train for one of the most advanced missions known to man. We will be working together, problem solving and preparing for our new and exciting mission on Mars.

Space Builders August 17 - 21

Are you always wanting to build something bigger and better? This week, we will be building with everything we can get our hands on! Solo or in a team, with a few helpful pointers from our leaders, your child will be a space builder in no time.

Creative Expressions July 13 - 17

Bring out your child's creative side. Paint, sculpt, draw and design; sing, dance, act and play. In this extremely interactive week we will be touching on more than just 2D creativity. Together as a group we will challenge and encourage each other to bring out our inner artist. Let's bring art to life.

Earn Your Wings to Flight August 4 - 7

Kids will explore the past, present and future of aviation. We will be using wind tunnels, just like the Wright brothers did, to test out different wing shapes and learn the basic mechanics of flight. Campers will get the chance to explore the different theories of creating a sky-high rocket and watching it blast off. Let's see if your camper has what it takes to be the next aviation innovator!

High Five: Learn Your Senses August 24 - 28

In this brand new week, we will be exploring all aspects of our senses! Whether it's seeing, tasting, smelling, hearing or touching, we will have many out-of-thisworld ways to discover. From mystery boxes to optical illusions, we will have your child questioning and exploring every possibility.

Space Explorers July 20 - 24

Welcome Space Explorers! This week we will look inside our Galaxy and adventure off into the stories of Greek and Roman Mythology. There is so much to learn about what is up above. Let us ignite your child's imagination and spark their knowledge of our constellations, planets and beyond.

A Greener You August 10 - 14

In this unique 'greener you' week, we will discover how to keep the planet cleaner, and why it's so important. Constantly uncovering the secrets and wonders of our planet, we will use many hands-on activities to see the affect we have on the earth. Find out what small changes we can make in order to create a difference. Reduce, reuse and recycle! Be the leader of the group and take the path less travelled.
