

Request for Public Comment on Project Description and Scoping Document

Proposed Calgary International Airport Parallel Runway Project

The Calgary Airport Authority (the Authority) invites public comment on the draft Project Description and Scoping Document for the proposed Parallel Runway Project (the Project).

The Project consists of the following:

- a 4270 m x 60 m runway (14000 ft x 200 ft)
- associated taxiways
- a perimeter road with security fencing
- grading of workspace to the east of the proposed runway
- visual navigation aids
- electronic navigation aids
- a maintenance facility
- a field electrical centre
- changes to airside/groundside roads necessitated by construction of the runway
- closure of part of Barlow Trail
- a tunnel servicing the airport's cargo area for airport service vehicles to pass under one of the taxiways
- utility services to the runway including some changes to the airfield storm drainage system

The Project is subject to a Comprehensive Study under the Authority's Environmental Policy requirements. The public is invited to comment on the draft Project Description and Scoping Document which describes the main components/activities of the Project and identifies key issues and studies required in the assessment to be conducted by the Authority. **The public comment period has been extended and now closes July 31, 2009.** Comments received after this date will be considered but responses may not be incorporated into the final Project Description and Scoping Document. Interested parties should forward their written comments in the official language of their choice, via mail, e-mail or fax, to the attention of:
