INTERNATIONAL FACILITIES PROJECT (IFP)

The new International Terminal features a state-of-the-art Baggage Handling System that provides positive bag tracking and has the capacity to process 4,000 bags per hour.

New streamlined Canada and U.S. customs facilities and processes.

The new International Terminal will add approximately two million square feet to YYC - equivalent to 34 football fields.

The International Terminal is a green building:
- 581 geothermal wells
- 660 km of in-floor radiant heating tubing
- Co-generation will save 4,900 tonnes of CO₂ / year
- 800,000 litres of rainwater can be captured and re-used

There will be 24 new aircraft gates for International and U.S. destinations.
